

Fluid Movement. Total Control.

When it comes to Steering & Suspension components, don't just take a leap of faith. Better to stick with the quality and experience you trust.

There are over 4,000 parts in our new 2011 Steering & Suspension catalogue, with a focus on the most modern cars on the road. Each part is made in controlled and inspected plants to matching OE quality. But not, of course, matching OE prices.

Don't put customer safety on thin ice.

Specify the best. FAI.

Your local FAI distributor

FAI is proud to have been awarded the 'A' Ranking Quality Seal 'Certified Data Supplier' by TecDoc.
